ABOUT

Enthusiastic and innovative software engineer with a passion for developing user-centric applications and a knack for problem-solving. Seeking challenging opportunities to apply my skills in a dynamic team environment.

SKILLS

Programming: Python, Java, JavaScript, React, Node.js
Data: SQL, NoSQL, Firebase, Pandas, Numpy
Miscellaneous: Git, Docker, Kubernetes, Agile, Scrum

EDUCATION

University of British Columbia — Vancouver, BC
B.Sc. in Software Engineering — *2019 - 2023*
Focused on web and mobile application development; expected graduation in May 2023.

WORK EXPERIENCE

Innovate Tech — Vancouver, BC
Software Developer Intern — *2022 - Present*
- Developed and optimized web applications, improving user experience and performance.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Assisted in the integration of back-end services with JavaScript-based front ends.

Creative Solutions — Vancouver, BC
Junior Web Developer — *2021 - 2022*
- Contributed to several high-profile client projects, focusing on frontend technologies.
- Implemented responsive web design principles to ensure websites render well across multiple devices.
- Participated in code reviews and collaborated with senior developers to enhance code quality.

PROJECTS

E-Commerce Website — *2021*
- Developed a full-stack e-commerce website using React and Node.js.
- Implemented features like product listing, a shopping cart, and secure checkout.

Mobile Fitness App — *2022*
- Created a fitness tracking app with personalized workout and diet plans.
- Utilized Firebase for user authentication and data storage.
